

## Safe & Secure

We're proud to share that our eStore has successfully completed another PCI DSS v4.0.1 compliance assessment – the latest version of the standard. This achievement marks a significant milestone in our ongoing commitment to maintaining the highest levels of payment security as defined by the PCI Security Standards Council.

Following the assessment, we ensured secure updates, PCI-compliant payment processing, full-site HTTPS, strong access controls, and regular security monitoring.

eStore Successfully Passed  
PCI Compliance Certification  
June 2025/2026

### Questions and Further Information

If you have any questions or need further information about our PCI compliance, please feel free to ask. We are here to provide any additional details and address any concerns you may have.
