2. Selling Full Kitchens – Advanced Option:

This feature lets you showcase complete kitchen designs with an advanced level of detail. For UX, it now includes a step-by-step section, additional fields for customisation, and extra information to include with door and cabinet details, making it easy for clients to explore every element of their new kitchen.

3. SEO – Advanced Option:

Provides full SEO control including blog tags, lowercase URLs, image tags, and optimised overall HTML structure to improve Google page ranking and search visibility.

* We will keep you informed as soon as the new CMS 2.29 is available and ready for use.
